PROFILE

I AM AN ENERGETIC, DEDICATED, AND HARD WORKING INDIVIDUAL WHO ENJOYS
PROBLEM SOLVING AND LEARNING IN A FAST-PACED ENVIRONMENT.

SKILLS

QUICK LEARNER

As peers & colleagues have ac-
knowledged, I have a natural skill
for becoming quickly proficient in
any new environment, language, or
paradigm. I'm always excited by the
idea of mastering something new!

TECHNICAL

6+ Years of direct web application development experience. I am highly
skilled in:

PHP	HTML5	CSS3	OOP	Linux/UNIX
Javascript	Rails	Apache	ORM	MySQL

Familiar with: Java, C, Backbone.js, and ASP.NET MVC

WORK EXPERIENCE / PREVIOUS POSITIONS

KONRAD GROUP, INC.

2011 - 2012

WEB APPLICATION DEVELOPER

My job at KG is to build robust and scalable Ruby & PHP driven applications. Furthermore, I'd rapidly produce standards-compliant web sites from design files made in Illustrator or Photoshop. I was part of the Rails team, and greatly assisted in rapid

WWW.MYBIKELANE.TO

2013 - PRESENT

PERSONAL PET PROJECT, SOLE DEVELOPER

Online in Production within 48 hours, I rebuilt the now defunct MyBikeLane.com for cyclists living in Toronto. With Cycle Toronto, MLB is projected to reach hundreds of active users by June. It's also planned to log data that can be used to gain insight to cyclist infrastructure.

DID YOU KNOW?

MyBikeLane is sponsored
by Cycle Toronto, working
together for cyclist advocacy

RYERSON RESIDENCE LIFE STAFF

RESIDENCE ADVISOR

I was in charge of ensuring the safety of 50 students on a floor as well as coordinating events with 40 other Resident Life Staff members.

2010 - 2011

ENCOUNTER XI RETREAT

ENCOUNTER RETREAT LEADER

Working with a team of approximately 20 other leaders, I orchestrated a secret, life-changing retreat sponsored by the Dean of Academics at Collingwood Secondary School. This project took approximately 6 months in preparation and was executed in 3 days.

AVRIL LAVIGNE BANDAIDS (BANDAIDERS NETWORK)

CHIEF TECHNICAL OFFICER

Working as the CTO, I installed Linux/UNIX scripts and software for a 40,000 member web-server. I upgraded hardware components on the server, replaced dying drives, performed backups and removed a rootkit from a hacker.

2007 - 2009
